**Statement by Walter McCaffrey, Keep NYC Congestion Tax Free**

Re: Quinnipiac Poll, November 19, 2007

The public has spoken again. They are deeply opposed to congestion pricing for the same reasons they the numbers continue to dramatically increase. Even in Manhattan, support for this flawed plan is dwindling and it is time to accept the public's concerns and move on to cost-efficient, fair and practical alternatives that will help solve the real problems of traffic congestion.
