## Over and Over.....again Staten Island Chuck's "traffic" forecast

More important than any weather prediction, sources tell us at Keep NYC Free that [Staten Island Chuck](#) made another important forecast that politicians and talking heads ought to pay head to:

The furry little crawler predicted the failure of the [latest](#) attempt at a congestion tax. And he made another related forecast: that no matter what they want to call it traffic pricing, tolls, congestion pricing, etc., Chuck clearly indicated that it is [just another tax](#). Guess the taxers at placers like the Partnership severely ruffled his fur.

Perhaps they might ponder these [lyrics](#):

*As the clouds begin to gather  
over and over and over again  
The mystery will unfold  
And as you touch what really matters  
Over and over and over again  
All that glitters won't be gold*

So I thank them for reminding me of [song](#) (by Rock & Roll Hall of Famer [Richie Furay](#)) that includes the above lyrics and provided the title to this post.
